

## **Note from Asaf Lubezky Sports Academy:**

My staff and I would like to welcome previous campers along with new families to our 2010 JCC summer sports camp.

### **Sports Camp Objectives:**

- 1) Have fun in a safe environment
- 2) Develop beneficial athletic habits
- 3) Teach the skills of the games
- 4) Develop tactical skills
- 5) Encourage the campers to work together and respect their teammates and friends
- 6) Work with the campers on developing leadership characteristics
- 7) Establish great bonds between campers and staff
- 8) Provide a well rounded summer
- 9) Provide the best sports camp in Florida
- 10) Enjoy the summer

Each child will receive a general camp T-shirt and a cinch pack as a gift from the JCC & Academy by signing up for the JCC sports camp. Throughout the 8 weeks we focus on positive reinforcement. We will be rewarding trophies to campers who win specific competitions. Campers can also receive a trophy by showing big improvements and displaying great behavior to their fellow campers and staff.

We will play outside but most of the sessions will be in the gym because of the heat.

\* The last couple of years have been very successful because of the high level of respect between the coaches and campers. The camper's exceptional behavior in the past has allowed my staff and I to focus on teaching the children the correct techniques, tactics, sportsmanship and teamwork. We would like to continue on this path. I intend to keep the ratio low between coaches and campers. Most of the coaches are returning as they had such a great time with the kids for the last couple of summers and are excited to renew their friendships with the campers.

Please feel free to contact me personally if you feel there is anything I need to know in order to help your child have a great experience.

I look forward to having fun and working with your children,

Coach Asaf
